

WESTHOPE FINDS PROSPERITY IN PLANTING SPUDS

Get Away From Uncertainty of One Crop—Ship 41 Cars of Tubers

(By Sidney W. Hooper)
No. Dak. Extension Division
After looking over a crop of wheat from rust, drought, grasshoppers and other insects had and almost every other attraction experienced by grain growers in North Dakota, farmers and business men of Westhope, Bottineau county, are jubilant.

The farmers are not rejoicing over their lost wheat crops, but—this fall 41 carloads of potatoes are being shipped from Westhope to eastern markets, and it is estimated that the potato crop will bring the farmers of this neighborhood \$25,000. Never before in history has a single carload of potatoes been raised in the Westhope neighborhood and shipped out. And thereby hangs a tale.

Early last winter County Agent C. B. Aamodt of Bottineau announced that a meeting would be held in Westhope to discuss the possibilities of potato raising. Six farmers attended the meeting. They told their neighbors about it, and a little later Mr. Aamodt held a second meeting. There was a material increase in the attendance. Several more meetings were held and as a result the Westhope Community club, composed of the business men and farmers of the neighborhood, became interested.

Notes Signed
Early last spring twelve business men and eight farmers, all members of the club, signed a joint note for \$1,000 and purchased a carload of seed potatoes, 300 bushels of which were certified. The Westhope Potato Marketing association was organized and this seed was distributed to the members. The certified seed was turned over to three farmers with the understanding that they should sell their entire crop back to the association. This fall at the market price, the farmers receiving the benefit of the increased production and improved quality from the certified seed stock.

Now more than 4,000 bushels of certified seed is available for the members of the association. It is being resold to them at a premium of 15 cents per bushel over the market price, and the difference is turned into the treasury of the organization to be used for the expense of marketing the 1921 crop.

Eighty farmers grew potatoes this year, and the total acreage was 350, the fields averaging under five acres. It is anticipated that the membership of the association will be doubled next year and that more than 1,200 acres will be planted to tubers. The average yield was above 150 bushels to the acre, and the record was made by Chris Jensen, who received a yield of 225 bushels to the acre on his seed plot and 200 bushels in his field. The seed for the plot was selected, and it is to this that he attributes the increased yield.

The potatoes are being shipped for sale to the Minnesota Cooperative Potato Growers Exchange at St. Paul. Through cooperative handling and elimination of excessive handling charges, the farmers hope to get their product to the consumer cheaper and at the same time receive a larger price for it themselves. Construction of a potato warehouse with a 50,000 bushel capacity is definitely assured for next year.

Celebrate Fortune
In celebration of the good fortune experienced by the farmers in raising potatoes, the whole countryside turned out for a program staged in the community hall last Friday by the Westhope Community club. A community dinner was served, and the champion potato raiser, Chris Jensen, furnished 350 big baked potatoes for the visitors. Following the dinner, several talks were given, and a crowd of 800 heard County Agent Aamodt give a summary of what potatoes had done for Westhope farmers.

"Where do we come in?" said a business man. In discussing the relationship between the community club and the potato raising project. "Well, in the first place, we figure on living here the rest of our lives, and we want happy, prosperous farmers for neighbors. In the second place, it's money in our pockets to encourage the farmers to raise potatoes."

"Four farmers that I have in mind have owed me large accounts during the past five or six years in which we have not had a good wheat crop. I figured that if I was lucky I would collect a total of \$160 from these four farmers this year. But they fooled me. They grew potatoes. This fall all four have come into the store and squared up their accounts paying me a total of \$1225. That's enough to make anyone a confirmed potato enthusiast."

Similar potato marketing organizations have been formed by Mr. Aamodt at Maxbass and Newburg, and he is recommending to them all that they ship their potatoes to the Minnesota Cooperative Exchange. Farmers of Bottineau county no longer speak of "the county agent." It's "Our County Agent" with them now.

SURVIVES NINE CHILDREN
Redhill, Eng., Oct. 22.—Mrs. Mary Schalliehn has just celebrated her 10th birthday. She has survived all her 10 children except one. Her remaining daughter is 71 years old.

PLAYFUL PET

Snakes are just as nice and playful as pet dogs or kittens, when you learn to like them, says this boy. He's the three-year-old son of Richard G. Payne of the National Museum in Washington, D. C.

THE FOUR HORSEMEN OF THE APOCALYPSE

At last the theater-goers of Bismarck are to have their first opportunity of seeing the widely heralded and eagerly awaited "Four Horsemen of the Apocalypse," justly acclaimed as "the greatest photoplay ever screened." This remarkable picture is to be shown here at the Eltinge Theater a week beginning Monday, October 31.

The Metro Company is responsible for the production of the screen version of Vicente Blasco Ibañez' great novel, which set all the world a-talking when it was published some years ago. Young Rex Ingram directed the making of the film, from the masterly scenario arranged by June Mathis. The company literally numbers thousands, with a long list of principals including such famous screen artists as Rudolph Valentino, Alice Terry, Wallace Beery, John Sanpoulos, Mable Van Buren, Stuart Holmes, "Bibi" Montant, and two score others equally prominent. In making the scenario, Miss Mathis has followed the novel with gratifying fidelity. Scenes range from the wide plains of the Argentine, where the Centaur Madariaga lord it over his huge flocks and herds, to Paris of the gay pre-war days. Then we are shown some tremendous and thrilling glimpses of the battles along the now historic Maine river, such battle scenes as never have been screened before and never will be screened again.

One sees the love story of Julio Desnoyers and the beautiful Marguerite Leaurio unfold in young Julio's romantic Parisian studio, fascinating scenes show genuine tangos danced in the cabarets of Buenos Ayres, the charming heart episodes of Chichi and her "little soldier" are depicted with touching skill. And through it all, fit the grim figures of the Apocalypse: Horsemen, War, Famine, Pestilence and Death.

No one should fail to see this triumphant photodrama, which has been drawing capacity houses wherever it has been presented. Each performance is accompanied by an elaborate musical program arranged especially for "The Four Horsemen" by Ernest Laz.

The sale of seats will begin next Monday at the Eltinge.

Dance, Patterson's Hall. To-night and every night. 10c a dance. McKenzie Orchestra.

Armed for A Bear

"I'd almost as soon go hunting without my Harley-Davidson as without my Harley-Davidson. This trip I sure needed the guff, because Mr. Bear and I met at close quarters."

"But even if I didn't get any shooting," my Harley-Davidson would give me enough sport to last me till the next trip. Anytime, anywhere, road or no road—she is always "raring to go" with all the speed I want, and comfortable riding, too. And she's nowhere near such a drain on the pocketbook as other kinds of travel."

Harley-Davidson prices have been cut 15%. Ask for demonstration and reduced prices.

"A March Hare," and the Hall Room Boys in their latest comedy.

Probably there is no artist of the screen today whose appearance and personality better fit tom-boy, harum-scarum roles than do Mas Bebe Daniels. Realart has wisely chosen to present her in just such roles, and with Elmer Harris to prepare such amusing stories for her, and Major Maurice Campbell to direct them, the public is always assured of a fun treat when saucy Bebe comes to town.

LUXURY TAX GOES TO POCKETS OF LANDLORDS

Rome, Oct. 21—Americans who have paid the Italian luxury tax demanded in the so-called deluxe restaurants of Rome will be chagrined to learn that four of those restaurants which draw large numbers of visitors from overseas did not turn that tax money into the Italian treasury at all but simply put in the restaurant cash drawer.

The restaurants which have just

been discovered by the Italian police as collecting this money from the public under the guise of a national tax have all been brought to account for the illegal manipulation of accounts and have been fined 1,000,000 lire by the Italian Finance department. The Umberto restaurant paid the highest fine which aggregated 558,800 lire. The Castello dei Cesari paid 78,191 lire; the Regina, 391,800 and the Taverna Russa 23,900 lire. (At normal exchange 1,000,000 lire would be equivalent to about \$200,000, at current rates to about \$40,000.)

The waiters of these restaurants would present the bill to the customers adding on ten per cent for the luxury tax. No record was kept of the ten per cent on the bill and accordingly no return was made to the Italian Finance department. When the authorities discovered the ruse they took the books of these restaurants and placed a fine amounting to the discrepancies.

FIRE DESTROYS FARM BUILDING

Fire destroyed the root house on the farm of E. G. Patterson, east of Bismarck, last night, the loss to building and contents being placed by

Mr. Patterson at between \$1,200 and \$1,500.

There was no insurance, this being the only building on the farm not insured.

The fire was started either by a discharged employe or might possibly have started from a locomotive spark, Mr. Patterson suggested.

FULL MEANING OF THE STRIKE

How National Railroad Tie-Then "Baldy" Haynes Retires
up Will Hit The Public With Regrets at Age of 70

By NEA Service.
Washington, Oct. 24.—The full meaning of the strike in the transportation of the country will be felt in the great distance of the food supply and the great distance of the food supply and the great distance of the food supply.

General Public.
The 120,000,000 persons who travel on our railroads will find their traveling curtailed and curtailed if not cut off altogether. Thousands of these are salesmen and the inability of these men to continue will bring in added hardship in many businesses and possibly additional unemployment.

Shippers.
According to the latest figures obtainable \$29,709 freight cars are being loaded weekly on American railroads. This enormous output with the exception of the small amount that could be distributed by motor units would be cut off.

Railroad Employees.
The number of railroad employees today following the radical reduction in personnel made by the railroads during 1921 is approximately 1,700,000. This is a reduction of about 100,000 or roughly 15 per cent.

Railroad Owners.
The strike as planned will tie up completely railroad systems whose net earnings in 1920 were \$161,922,776. It would paralyze an industry that in one year—1920—paid to its stock and bond holders more than \$330,000,000 in interest and dividends.

Jobless Riot in London
The latest official figures available for all roads show the total outstanding capital of all companies to be \$20,754,832,441 in addition to outstanding stock of switching and terminal companies amounting to \$486,702,296.

Social and Personal

Returns From National P. E. O. Biennial Meeting

Mrs. Howard F. Simpson, Belmont, avenue, Grand Forks, recently returned from the 24th biennial convention of the supreme chapter, P. E. O. Statehood, held at Kansas City, Missouri. Mrs. Simpson represents Chapter D of Grand Forks, Chapter E of Fargo and Chapter F of Bismarck. Other North Dakota delegates at the convention were Miss Florence Porter, state president, of Minot, Mrs. J. H. Eaton, past state president, Fargo, and Mrs. Anna A. Hanna, of Valley City.

The convention was held in the ball room of the Hotel Muehlebach, Mrs. Helen Dawson Townsend of Iowa, presiding, 352 delegates were present from all parts of the United States, and British Columbia. The state of Iowa was represented by the largest delegation, numbering 11. Michigan, Wisconsin, Oregon and North Dakota with four representatives each, had the smallest delegations. Resolutions were adopted for the purpose of decreasing the number of delegates eligible for the conventions.

Mrs. Frank Rhoades, Elliott of Chicago, one of the original seven girls who fifty three years ago founded P. E. O. at Iowa Wesleyan university, was an honor guest at the convention. Mrs. Rhoades has passed her seventy birthday, but enjoyed with enthusiasm the few sessions which her frail health permitted her to attend.

Several past supreme presidents, all of whom are well known by North Dakota P. E. O. sisters, were in attendance. They are Miss Helen Drake of Nebraska, Miss Margaret Durward of Colorado, Mrs. Edith Prouty Pritchard of Iowa, and Mrs. Wm. J. Reeves, Minnesota. Mrs. Reeves won prominence for her work as editor of the Record in addition to her successful reign as supreme president.

The education fund, which is the national work of the P. E. O. Sisterhood, received a great impetus. This fund may be granted to deserving girls, who have completed the equivalent of a high school course, was awarded to 247 girls last year, it was announced. By this means it is possible for girls to acquire a college or university education at any time of endeavor and money is loaned to girls who meet the requirements regardless of whether or not they have P. E. O. relatives. Records have shown that in fifteen years of administering the fund, not one loan has been lost through bad faith.

Mrs. Edith Burrell of Washington, D. C., who conducts the largest class of Sunday school girls in the world, gave one of the interesting periods of the convention. Just three years ago, Miss Burrell started her class with six girls. It remarkable growth to the present membership of 2,800, is understood by those with whom Miss Burrell is acquainted or by those who have been fortunate enough to hear her talk. She is said to possess a magnetic personality especially appealing to girls.

The P. E. O. officers elected for the coming year are:

Mrs. Bertha Clark Hughes, Nebraska, supreme president.

Mrs. Vina Ives Bowden, Missouri, first vice president.

Mrs. Daphne L. Beatty, California, second vice president.

Mrs. Della B. Musser, Colorado, organizer.

Mrs. Ole B. Miller, Iowa, recording secretary.

Mrs. Eleanor Bailey Himes, corresponding secretary.

Mrs. Eva See, Kansas, treasurer.

Mrs. Edith Burrell, Washington, D. C., executive secretary.

their Community Chorus a musical extravaganza in February

With their concert in November, the extravaganza in February and the Messiah directly after Easter the club will have a full season and will give three delightful numbers to Bismarck people.

The contract with Mr. Rogers calls for costumes for 150 people, nearly a carload of scenery and a special director for the rehearsals and production of the extravaganza.

The membership of the club now numbers a hundred and twenty-five. New members are still welcome and the names of candidates may be given to any member of the club or Mr. Gale. The chorus will hold their regular weekly meeting at the Business and Professional Women's club rooms this evening at 7:30.

Nurses to Meet in Fargo in April

At the semi-annual meeting of the executive board of the North Dakota Nurses Association held in Minot it was decided that the annual meeting would be held in Fargo, April 25 and 26.

Miss Ida Swanson of Bismarck and E. M. Anderson of Williston of this section attended the meeting. Miss Esther Teichmann of Fargo was named a delegate, at this time, to represent North Dakota at the annual meeting of the American Nursing association about April 15.

All members of the executive board, with the exception of Miss Marie Hanson of Grand Forks, who is now traveling in Germany, were present at the meeting at Minot. The board is made up of Miss Josephine Stenue, Fargo, president; Miss Sarah Sands, Fargo, first vice president; Miss Hanson, second vice president; Miss Clara A. Hut, Minot, secretary and treasurer; Miss Esther Teichmann, Fargo, corresponding secretary; Miss Marie Farr, New Rockford; E. M. Anderson, Williston; and Miss Ada Swanson, Bismarck.

County Welfare Worker Asks Donation for Needy

Constant calls come to the county welfare office from all parts of the county for clothes. A great many children are out of school this year and upon investigation, in many cases, it has been found that lack of proper clothing is the cause.

Anything that is clean and wearable can be used. Articles can be made over and mended but the county welfare worker, Miss Ruth Kelling, asks that all donations be clean and wearable.

Steps are being taken now for the complete obliteration of illiteracy from the county and from the state. Especially in the foreign parts of the state it is advisable to keep the children in a condition so that they can attend school regularly. To do this they must have clothes. It is through their school work, the discipline of school laws, and the constant attendance at school, that we can do a great piece of Americanization work.

It is hoped that people of the city of Bismarck and of Burleigh county will take this call as urgent and give what they can. Anyone who has any donations are asked to notify the county welfare worker, Miss Ruth Kelling.

HAVE OPEN HOUSE PARTY

On Wednesday night the Business and Professional Women's club will hold the second of their series of Open House parties. All working girls of the city are invited to attend this party. It is the plan of the club that from now on the club rooms will be open one evening a week for the use of the girls for social entertainments or gatherings. The night will be decided upon at the next meeting of the club.

GIVE DANCING PARTY

A Junior Girls club of the Bismarck high school entertained at the home of Miss Betty Dunham on Saturday evening. The hours were spent dancing. At the close of the pleasant evening, refreshments were served by the hostesses. Following the evening at the Dunham home the girls were invited to a slumber party at the W. L. Smith home.

RETURN FROM TRIP

Mr. and Mrs. E. H. L. Vesperman have returned from a three weeks motor trip through South Dakota, Iowa and Minnesota. They visited friends and relatives at points in each state. Mr. and Mrs. Vesperman report perfect weather, with the exception of the one windy day last week, and splendid roads throughout the entire trip.

AID MEETING

The Ladies Aid of the First Baptist church will hold an auction sale at the home of Mrs. Scott Cameron, on Second street, Wednesday afternoon at 3 o'clock. There will be halibut, lamb steaks and luncheon will be served. Members of the church are asked to come and bring their friends.

BISMARCK CHAPTER P. E. O.

The Bismarck chapter of the P. E. O. Sisterhood will entertain the members of the Maudan chapter of the P. E. O. at the home of Mrs. J. C. Anderson tomorrow afternoon. It is expected that nearly the entire Maudan chapter will attend this combined meeting.

WILL NOT MEET

The meeting of the Mothers Social Club will not be held on Tuesday of this week. This meeting was held last week at the home of Mrs. A. P. Lambart as a farewell for Mrs. Robert Lambart and the club will not meet until its next regular meeting day, November 5.

CONDUCT INSTITUTE

County Superintendent of Schools and Mrs. W. B. Parsons have gone to Amidon, N. D., where they will conduct a teachers institute during the next week.

RETURNS FROM VACATION

Miss Hulda Gustafson has returned from a two weeks vacation at her home at Underwood.

BUSINESS VISITORS

David M. Keeney, of Montgomery, Ala., and J. M. Keeney, of Birmingham, Ala., are business visitors in Bismarck Saturday.

VISITING MOTHER

Mr. and Mrs. Joe Haven and child, of Burnstad, N. D., were guests at the home of Mrs. Haven's mother, Mrs. A. C. Smith, over the week-end.

"FOUR HORSEMEN"

Scene from "THE FOUR HORSEMEN OF THE APOCALYPSE"

Children of Burnstad, N. D., were guests at the home of Mrs. Haven's mother, Mrs. A. C. Smith, over the week-end.

LEAVES FOR EUROPE

Friends in the city of Miss Ruth Bracken, formerly supervisor of Red Cross nursing in North Dakota, will be interested in knowing that last Saturday, Oct. 22, she sailed for Montenegro, where she will engage in Red Cross work.

FINISHES TRAINING

Miss Emma Olson has finished her nurses training at the Bismarck hospital training school. She will not return to her home at Berthold, N. D.

VISIT HERE

Mr. and Mrs. H. G. Higgins of Baldwin, Mr. and Mrs. Simon J. J. Smith, Mr. and Mrs. Victor Smith of Williston were visitors in the city Saturday.

VISITS DAUGHTER

Mrs. H. H. Dingle leaves this evening for St. Paul, where she will visit at the home of her daughter, Mrs. A. D. Stedman for several weeks.

HERE ON BUSINESS

R. C. Miller of Helena, Montana, special agent of the General Land office was in the city in business Saturday.

GUESTS HERE

Miss Winifred Watt of Windsor, and Mrs. J. D. Robson of J. M. town, were guests at the A. H. Schaefer home yesterday.

TO CALIFORNIA

Mr. and Mrs. Robert Dutton and family left yesterday morning for California where they will make their future home.

RETURN TO TUTTLE

Mr. and Mrs. J. J. Peterson of Tuttle left this morning for their home after spending several days visiting in Bismarck.

TO MINNESOTA

Mrs. J. D. Healey left last evening for Minnesota, where she was called by the death of a nephew.

VISITING HERE

Miss Ida Youngquist and Miss Thompson of Linton were visiting friends here Saturday.

WEEK END GUEST

George Alsop of Glasgow, Mont., was a week end guest at the G. R. Thompson home.

FROM REGAN

Newell Blewett of Regan was a visitor at the Len Dalheimer home yesterday.

GUEST FROM DEULAH

Daniel Hall of Deulah, spent the week end visiting Mr. and Mrs. J. G. Wallace.

SHOPPING HERE

Mrs. Andrew Ervin of Glenora was shopping in the city Saturday.

CABBAGE

Take the lid off of the kettle when you boil the cabbage, leaving it on discolors the cabbage.

CURTAIN RODS

Curtain rods can be run through curtains easily if a thimble is put on the end of the rod.

FOR SPEED

The colder the eggs which you intend to beat, the more quickly they will froth.

SOUP

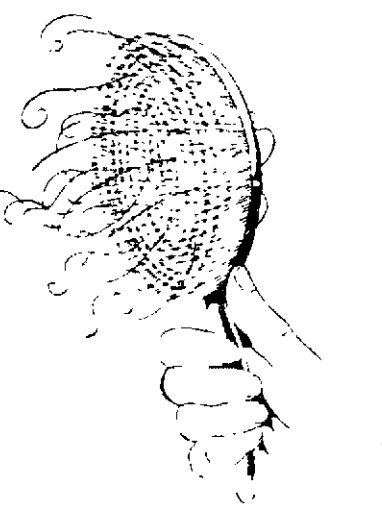

Soup should simply simmer and not boil. Boiling it affects the delicacy of the flavor.

PUDDINGS

Don't put puddings made with milk in a very hot oven, for the intense heat curdles the milk.

DANDERINE

Stops Hair Coming Out; Thickens, Beautifies.

YOUNG GIRL FINDS RELIEF

Wants to Tell Other Girls All About It

Therese, 14, an eighteen years old and have been bothered for several months with irregular periods. Every month my back would ache and I always had a cold and felt drowsy and sleepy. I work in a cannery and I went to work every day but felt stupid and would have such cramps. I had seen Lydia E. Pinkham's Vegetable Compound advertised and had tried several women talk of it, so I rather got me some. This Vegetable Compound is wonderful and it helped me so much, so that during my period I was not so sick or wavy. I have told many girls about this medicine and we are glad to help someone who is troubled with similar ailments. You may also see Lydia E. Pinkham's Vegetable Compound in the Bismarck Tribune.

THE STATE'S OLDEST NEWSPAPER
(Established 1873)

SUICIDE
Chicago had more suicides in first nine months of 1921 than in all of 1920. Other sections report similar gains in self-taking of life.
The suicide increase is an inevitable result of business depression. There is nothing permanent or alarming in the increase. Better business conditions will lower the rate. Few, except those mentally unbalanced, take their own lives on a full stomach.

"MRS. LADY"
A woman who said, "Call me plain Mrs. Lady," drove up to a schoolhouse in New York City and distributed an auto load of apples to 2000 children. This unusual performance halted traffic for 10 minutes, the traffic cops gleefully assisting.
Farmers instead of letting food rot because selling price doesn't pay for the trouble of marketing, would get much happiness if they hauled food into poor districts of cities and distributed it to the jobless. The satisfaction of being a "Mrs. Lady" beats wheat at \$3.50 a bushel.

JOKE
A great joker was Hugh Brennan, 32 years old, of Lynn, Mass. His favorite prank on fellow-motormen, when he was off duty, was to run into the street and fall down in front of a street car. That upset the nerves of the electric driver and Hugh got many a laugh.
The other morning, he tried his trick before a car driven by motorman Pat Connelley. The brakes didn't work. Brennan has a fractured skull. Every practical joker eventually causes a serious accident. Unfortunately, it is not always to himself.

GOSH!
The megaphone man on rubberneck wagons at Uniontown, Pa., should point out Thomas Marucci, street sweeper. Eight years ago, Tom came from Italy, penniless. His wages never have been more than \$2.50 a day.
Now he buys a home, paying \$10,000 for it. "This makes 12 properties I own," said Tom, between sweeps of his brush.

This is another wonder worked by the little giant, Thrift. To get dollars and cents, you need dollars and sense.

MILL
At Pawtucket, Rhode Island, the old Slater mill is being fitted up as a textile museum. It was built in 1790, as a clothing factory, and still is in excellent condition.

In those old days, before iron nails were cheap, when houses were put together with wooden pegs, they built better than we do now. At least, you often hear old-timers say so. Maybe they did, on the average. But, barring earthquakes, the Woolworth Building will be standing hundreds of years hence.

We may not do things as thoroughly as our ancestors, but we do a hundred times as much.

LOAD
Three excellent slogans, suggested by American Federation of Labor for banners in disarmament parades, November 11:
"In 40 years Germany will pay 30 billions for indemnity. At the present rate, in 40 years the United States will pay 30 billions for armament. The winners lose."

"War is hell. Armed peace is the gateway to hell. The world is now spending each year for war preparations eight billions. At 5 per cent, this represents income from 160 billions. The greatest drag on industry."
"The cost of the World War, to the United States alone, would buy a flivver for every man, woman and child in the United States."

RIVERS
Do you know the longest river in the world? Your answer probably is the Amazon. Yet its length is only 3900 miles. The Nile is 4000 miles, the Mississippi 2486 miles, and the Mississippi-Missouri river is 4221 miles, longest in the world. This doesn't mean much to us, but it did to America's pioneers. Early settlers of a country always follow rivers from the coast.
River navigation is coming back. Watch the inland river towns. They have big futures.

HAPPINESS
Navestock, English village, claims it is the happiest town in the world. For centuries it has had a custom of awarding a side of bacon, at the annual village fete, to the local married couple who have gone 12 months without a family quarrel.
This year, every married couple in Navestock claimed the bacon. Possibly that is where the expression, "taking home the bacon," originated.
Fortunate is Navestock. If you have a happy home, nothing else matters much.

NOISE
The worst pest in ocean, lake or river towns is the foghorn, which has a habit of moaning forth just as one falls asleep.
Some inventor should eliminate the foghorn by making a wireless device that would warn all boats coming within a certain distance of the carrier.
That would force all boats to carry wireless apparatus, which would be a great safeguard of human life.

TALK
A critic comments that the United States is a very talkative nation since it has 200 telephone calls a year for every man, woman and child. That, however, is less than one a day.
Considering the great ease with which we can use the telephone convenience, which has made all Americans neighbors, 200 phone calls a year for each inhabitant is almost the last word in silence. It doesn't seem to show up that way on phone bills, in communities that have metered service.

USEFUL
A man flies higher into the air than ever before, or does a new trick acrobatic act with an airplane. But that doesn't materially hasten the day when you and I can fly in safety.
Aviation will progress faster when it is regarded as a business proposition, not a stunt. The Aero Club of America knows this. It offers a cup to the designer of a plane that can carry "the most load the greatest distance in the shortest time for the least money."
That's a step toward cheap freight and passenger traffic by air route. Approved!

CAGED
At Ayrshire, Indiana, a mine generator blows up. A flywheel weighing four tons is scattered as if hit by a giant Babe Ruth. One piece, 1000 pounds, hits the roof of a two-story residence a mile and a quarter away and goes through to the cellar.
It takes instances like this to remind us of the enormous forces that have been caged by civilized man. Yet these forces are puny alongside those caged by nature. Enough power is stored in a square inch of atoms to destroy the earth. Man seeks a means of releasing this atomic force. Maybe it's better that he fails. Too much of a temptation for militarists.

FEEL FOR PITTSBURG
The Mellon Institute investigates and learns that 600 to 2000 tons of soot fall to the square mile in Pittsburgh yearly. And Pittsburgh claims it is not the smokiest town.
Scientists say the smoke nuisance costs Chicago \$50,000,000 a year. All cities have similar losses. The nuisance of smoke isn't limited to washing curtains and keeping the clothes clean. A tin roof, for instance, lasts 13 to 15 years in a smoky city, 18 to 28 years in a smokeless city.
The Electric Age, when coal will be burned at mines and the country put on an electrical basis, is close at hand. A few more decades and the only smoke in cities will be from tobacco. Maybe the blue laws will stop even that.

EDITORIAL REVIEW
Comments reproduced in this column may or may not express the opinion of The Tribune. They are presented here in order that our readers may have both sides of important issues which are being discussed in the press of the day.

THE JOBLESS MEN
There is a movement at Washington to restore the Federation employment bureau.
It was starved out of existence by the refusal of congress to make appropriations for its support. Secretary of Labor Davis has appealed to congress for an appropriation of two hundred and fifty millions with which to restore the system.
It was a wholesome and effective agency for bringing men and jobs together. Under its operation it was disclosed that there is often a surplus of labor in one section and a shortage in another. The regular reports of the system to a central office made it possible to relieve unemployment in one district by supplying the demand elsewhere.
The uncertainty of employment is one of the greatest evils of modern life. It may not seem a great evil to the other groups in society, but the everlasting thought with the worker, particularly the unskilled, is: Will the job last? His job means food for his family, shoes and school and happiness for his children, means the rent that keeps the roof over their heads. With his employment precarious and as in the present case, with more than 5,000,000 men jobless, all, except those who want an oversupply of labor in order to make wages low, must see wrong and deadly wrong in the uncertain tenure of employment.
The Federal employment system cannot cure this defect. But it can help minimize it, and congress can contribute to the welfare of the nation by providing funds for it to be restored to operation.—Portland Journal.

FOLLOW THESE DON'TS IF YOU'D AVOID FIRE

- BY LEW R. PALMER
Members of Safety-to-Life Committee, National Fire Prevention Association
- Don't fail to place metal protection under all stoves and protect wood-work where stoves or furnaces are close to walls.
 - Don't pass stove pipes through ceiling, roofs or wooden partitions.
 - Don't neglect to have all flues cleaned, examined and repaired at least once each year.
 - Don't fail to provide screens for open fireplaces.
 - Don't connect gas stoves, heaters or hot plates with rubber hoses.
 - Don't use gasoline or benzine to cleanse clothing near an open flame, light or fire. Use non-inflammable cleanser.
 - Don't use liquid polishes near open lights. Many such compounds contain volatile inflammable oils.
 - Don't Use a Torch
 - Don't thaw frozen water pipes by applying a torch or open flame of any kind. Wrap pipes loosely with cloths and pour on hot water, or send for a plumber.
 - Don't allow children to play with matches. Keep matches in closed metal box.
 - Don't go into closets with lighted matches or candles.
 - Don't fail to remember that there is always danger in the discarded cigarette and cigar stub.
 - Don't let electric wires come in contact with metal objects.
 - Don't hang lace curtains near unprotected gas jets.
 - Don't stand coal oil lamps on shaky tables.
 - Don't use hot hair curlers without removing celluloid combs.
 - Have you taken these precautions to protect your home? If not, start today.—National Fire Prevention begins at home.

GERMAN TRADE REVIVED.
Grimshy, Eng., Oct. 24.—The Grimshy herring trade with Germany has been revived. The first cargo since the war, 600 cases, has been shipped to Hamburg.

ADVENTURE OF THE TWINS
By Olive Barton Roberts

"I have some more work for you, kiddies," said Cap'n Pennywinkle to the Twins when they had returned from the Fairy Queen's Palace after taking her the last bag of gold. "I hear that the sharks are plotting against nice big Mr. Whale. One of them couldn't harm him, he is so big, but if they get together, they're a mean lot. If they would stay under the sea I could settle them by showing them my magic badge and shaking my magic stick at them, but the terrible fellows stay mostly on top and I can't do a thing. Do you want to help?"

"Yes, sir!" spoke up Nick. "We should like to ever so much, shouldn't we, Nancy?"

Nancy said yes, because the teacher had told them in school how useful Mr. Whale was. And she'd also told them that sharks were wicked.

"Well, then," said Cap'n Pennywinkle, "I'll call the Cuttle-fish, and Nick, you run and get me a net!" Thereupon he blew on his whistle and fifty Wiggles people came hurrying at once to see what was wanted, among them Mr. Cuttlefish.

"Wait here, Cuttle," nodded the fairyman. "I want you. The rest of you may go home." So Mr. Cuttlefish stayed round while the others swam away.

Pretty soon Nick returned with a net. It was one that Mr. Grimshy Crumplehead had thrown overboard on an ocean trip one time after he'd taken all of his rheumatism pills. It came in handy now, although so far the little boy hadn't any idea why the fairyman wanted it for, or why it should be useful in saving Mr. Whale from the sharks.

"Now then, Cuttle," said the Cap'n, "got any nice black ink?"

"Lots," answered the cuttlefish.

"Then," said the Cap'n, "fill this bottle, will you?"

Connecticut was the first state to adopt a constitution.

PEOPLES' FORUM
LOVES THE LAWYERS.
Laldwin, N. D.
Editor Tribune:
I notice that some of your Bismarck lawyers, Cameron, O'Hare, Davies, McCurdy and Koeel, are going to speak at school house meetings. There are only two times the lawyers come out to see us farmers, when they want to tell us how to vote and when they come to foreclose on our farms and our chattels.

A FARMER.

ON MANDAN ELECTION.
Editor Tribune:
A mistaken impression has been created by the Mandan city election last week. The Mandan Pioneer and the Fargo Forum stated that the election would be a test between the Non-partisans and the Independents. This is not true. Anyone knows that in every city election there are many elements which enter into it, that cannot be compared to the state issues. The fact that the Non-partisans polled over 650 votes in Mandan and their candidate was defeated by only 120 votes does not mean that the Non-partisans will come that close to carrying the city of Mandan next Friday. While there may be some increase or change in the vote yet I do not think that the Non-partisans can make any such showing. The impression created by misleading publicity in the Forum and Pioneer newspapers which are supporting Mr. Nestos ought to be corrected, and I hope you will have the grace to do so.

A VOTER.
(Glen Ullin).

FLIES WITHOUT MOTOR.
Munich, Bavaria, Oct. 24.—A German airman at Bishoffshofheim has just made a successful flight of 20 minutes with a motorless airplane. The machine rose 450 feet and sailed 12 yards.

The alimentary canal of the adult person is about 30 feet long.

EXPERIENCE OF NEW YORK WOMAN IS REMARKABLE
Mrs. Leman Had Suffered Ten Years From Indigestion—In Splendid Health Now
"I suffered for ten years from nervous indigestion. I had no appetite and always felt miserable. I was in such a serious condition I thought my time for this world was getting short. My food didn't seem to nourish me at all and I only weighed 55 pounds."
"After taking Tanlac, I now weigh 108 and am gaining every day. Oh! there is such a wonderful change now. Tanlac relieved my troubles so quickly it surprised me. My appetite is splendid. I have plenty of strength and feel better than I have in years. I wouldn't take one thousand dollars for what Tanlac did for me."
The above statement was made by Mrs. Clara Lehman, Bristol hotel, Rochester, N. Y.
"Tanlac is sold by leading druggists everywhere."

MILE A WHILE WITH TOM SIMS
Load clothes speak volumes.
"Steamer's Laundry Blows Up"—headline. The clothes will be washed ashore.
The worst movie villain is the one who eats peanuts.
Speeders often get in a pinch.
If these reformers go to heaven they'll chain the golden wings hurt their eyes.
Spain's 28 new warships will be Morocco-bound.
Lots of men have a thirst for knowledge of where to stop a thirst.
If men wear knickers next spring women will wear snickers.
All some people have for breakfast is a grouch.
When strikes come in the door prosperity flies out of the window.
It will be a hard winter for the man whose wife has cold feet.
The report that American women are growing whiskers will cause some hair-pulling.
"Prices going down further"—news item. Yes, into our pocket.
It's hard to keep up with running expenses.
"Congressmen betting on race horse," says a news item. What do they know about speed?
And when that Kentucky jury drank the evidence the paper probably said "Case goes to jury."
These tourists going overseas to see war ruins had better stay at home and give our war ruins jobs.
A man wants a divorce because his wife is a palmist. An itching palmist, perhaps.
America is short one million homes; but there are more short homes that that.
After the trip is over a man realizes those "No hunting" signs were correct.

Auto Theft Record Held By Chicago
St. Louis, Mo., Oct. 24.—Despite a 20 per cent increase in the number of automobiles, thefts of automobiles decreased 10 per cent in 1920 as compared with 1919, according to statistics made public at headquarters of the National Automobile Dealers' association here.
The association attributed the decline to results obtained from the federal motor vehicle theft law, more stringent laws in various states for the punishment of automobile thieves and vigorous police activity.
In 1920 the statistics showed that approximately 20,000 automobiles were stolen in 28 large cities of the country. This number was 3,000 less than those stolen in 1919.
With a theft list of 5,500 machines, Chicago had the largest number of motor vehicles stolen. New York had 5,200 and ranked next to Chicago.
A large decrease in the number of machines stolen in St. Louis was noted. In 1919 the number was 1,200, while only 800 thefts were reported in 1920.
Dayton, Ohio, had an unusual record of having recovered more stolen cars than the actual number of thefts reported, with 198 stolen and 211 recovered.
The figures showed that Pacific Coast cities recovered more than fifty per cent of the stolen automobiles.

MOUNTAIN MOVEMENTS.
Tublin, Oct. 24. By his expressed wish, Samuel R. C. Tublin, a large Tippecanoe landowner and deputy lieutenant of the county, was buried on the remoter part of the mountain overlooking his estate.

Punch is said to have originated in the East Indies.

We store household goods at 219 Main St. Phone 669. 10-22-35

"VAMPS" WHO MADE HISTORY
By JAMES C. YOUNG.
(© by McClure Newspaper Syndicate)
A NOBLE ENGLISH VAMPIRE.

THREE of England's dukes are direct descendants of Frances Howard, born in 1593, and one of the few English women who may be truly called vampires. Her father was the earl of Suffolk, and at the age of thirteen she married her to the earl of Essex, a year older. But she did not live with him until 1611, though in the meantime she had become mistress to the earl of Somerset, favorite of King James I.

Frances dabbled with soothsayers and one of these, a Mrs. Turner, got into trouble. She made it known that Frances had considered poisoning her husband, whom she hated. The matter was hushed up and Frances procured annulment of her wedding ties. Then she promptly married the earl of Somerset. Sir Thomas Overby, the earl's friend, earned her undying hatred by opposing the match. Frances schemed to have him imprisoned in the tower of London. Then she set out to poison him. Sir Thomas was aware of the plot against his life and took antidotes which offset the poisons given to him in food. So strong was his constitution that it seemed he never would die. But finally the end came. Then new honors were showered upon Frances and her husband. Despite this, retribution was near. A new favorite arose at court, the ugly stories of Overby's end were whispered everywhere. Weston, the keeper who had been responsible for the death of Overby, was arrested and confessed. He was hanged, then Sir Gervase Hellys, lieutenant of the tower, met the same fate. Mrs. Turner, who had a hand in the plot, also went to the scaffold, along with the apothecary who mixed the poisons.

The earl of Somerset and Frances were tried and condemned. It seemed that both were to pay the heaviest price which the law could exact, but the power of their families finally won a pardon for them, and although their estates were confiscated, each received a pension and the right to life, when, four of the lesser guilty ones had been executed. They were forbidden to stay in London and made to fix their residence at a country place. Perhaps this was the severest penalty that could have been inflicted for Frances grew to hate the man whom she had loved with such infatuation, and he saw in her only the instrument of his disgrace and the tool of fate which led to the murder of his friend. The last years of Frances were filled with tragedy and remorse. She died at thirty-nine, leaving an infamous memory behind her.

DOINGS OF THE DUFFS

ARTIST LEARNS LAW FOR LOVE'S SAKE; IT HELPS HER SCORE SUCCESS

BY RUTH AGNES ADELING
Minneapolis, Oct. 21.—That's Mrs. James Paige, you hear someone saying.
"The Mrs. Paige who's such a wizard with organizations?" some one echoes.
And surely enough, there she is! One of those intense people you know when she starts for the door that she knows just why she's going to that door. Keen, dark eyes, a resonant voice and eloquent hands—such is Mrs. Paige.
From the moment Mrs. Paige completed her art work with the Julianne studios in Paris she has been recognized as an organization executive of exceptional ability.
"I might tell you something that has a little to do with it," says Mrs. Paige. "I studied law, and not because I ever hoped to practice, but because I wanted to establish the right basis for a matrimonial union!"
"I met Mr. Paige while I was teaching art in Minneapolis. Mr. Paige was teaching law at the university law school. He had never been particularly interested in art and he couldn't take time to study it then, so since I knew nothing about law he suggested that I enter law school and take a full course. I did and was admitted to the bar."
"I have never practiced—never expected to—but it certainly was successful in bringing our interests together in a very delightful way."
"I think the first thing in any woman's life," Mrs. Paige continued, "should be her home and her duties as a mother, and next to that should come her duty and opportunity to serve the public. It matters not the circle—whether it be in the old organizations like the churches and clubs, in the various charitable and philanthropic activities of the city, or in the new and great League of Women Voters."
Mrs. Paige is about to start on a tour of North Dakota and Montana in the interest of the League of Women Voters. Mrs. Sumner McKnight, treasurer of the national organization, also a Minneapolis woman, will accompany her.
Mrs. A. F. Rice, Montana state president, will join them for their trip through that state.
Mrs. Paige has put her faith in the League of Women Voters because, says she, "it is the greatest educational organization for the woman voter."

MRS. JAMES PAIGE

MICHIGAN LEGION SEEKS OUT VETS WHO NEED AID

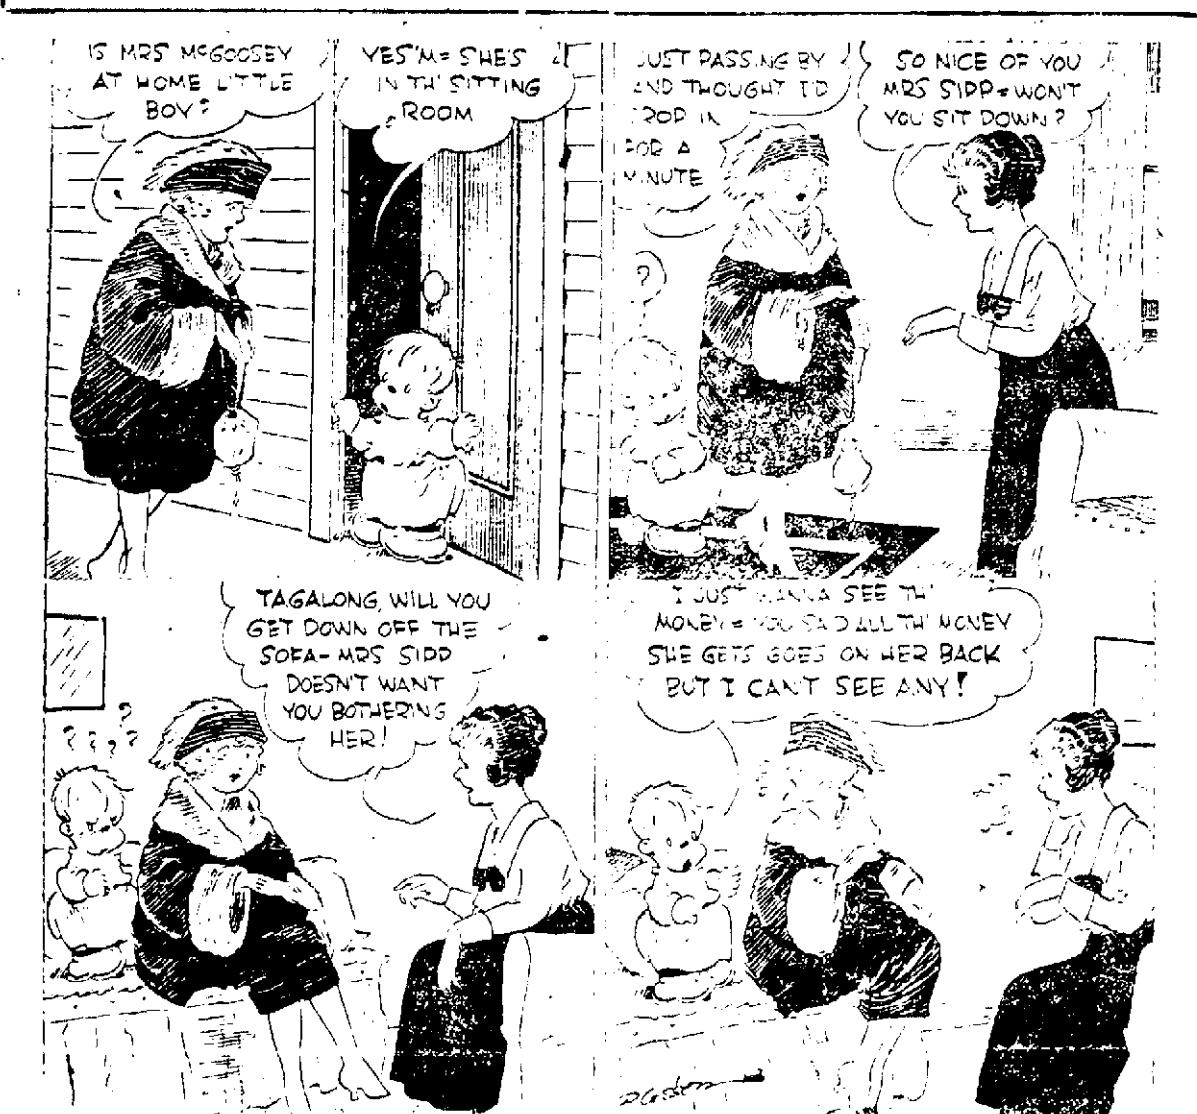

BY PAUL A. MARTIN
Commander, Michigan Department of the American Legion
The American Legion must go to the former service men who are sick or disabled, or who have a just claim against the government. It is to be the greatest service to him and to the government.
His first duty is to these, and then it must find.
Few are the cases that will come.

tarly come to it for help. Multitudinous are those worthy ones that must literally be "dug out."
Last year the welfare department of the Michigan Legion expended \$50,000 in operations and raised over \$50,000 in unpaid claims for former service men besides locating hundreds in hospitals for treatment, and being of incalculable service in author matters for others. This year it plans to double or quadruple that service. And it will do it in two ways.
It's carrying its welfare work direct to the man himself, and by providing the tuberculosis of the state with proper hospital care.

State Gives Hospital
The first is to be accomplished by establishing in 20 or more cities of the state branch welfare offices, each in charge of a county but many, each closely linked with the post of that city, each working in complete harmony with the Red Cross and the Veterans' Bureau, and each prepared for the speedy handling of claims or cases.
The man in charge will have a pre-arranged district, phoning his services at the disposal of the men of that district, and eternally seeking out those whose cases have not been cared for.
The second will be accomplished through the \$30,000 hospital given the Legion by the state for the care of tubercular ex-service men. This is the former Roosevelt Community House, standing at the eastern edge of Camp Custer, six miles west of Battle Creek. It will be known as the Roosevelt American Legion Hospital; will be opened about November 15; and will care for 200 or more cases.
It will be directed by the most expert specialists of the state, the state having provided \$85,000 for its equipment and maintenance.

Want Claims Cleared
Last year by means of traveling "contact" men, placed in various sections of the state, the welfare department learned the lesson by which the organization hopes to become of even greater service to the former service men—the lesson that showed that in many cases it was the man most in need who had to be hunted out.
It was this knowledge that caused the state convention at Kalamazoo to authorize branch welfare offices in many sections of the state, to carry their mission of service direct to the man himself.
It is the wish of the department

Freckles and His Friends

GAME LODGE AT CUSTER PARK IN S. D. BURNED

MARKETS

HOGS OF WEEK
South St. Paul, Minn., Oct. 21.—Receipts of hogs at last week's opening were the largest for the season to date, but under the influence of a good demand for stockers and feeders, the market ruled strong to slightly higher at the week's opening. However, continued large receipts and the lessened demand for stockers and feeders caused the market to weaken at mid-week, closing prices being steady to 25 cents lower than the previous week. Best western range cattle heaves sold early in the week up to \$7.00, with bulk of western and northwestern steers of grass selling at the close from \$5.00 to \$5.75, although better grades are still quotable from \$6.00 to \$7.00. Further she stock finished with the bulk at \$3.25 to \$4.50. Although best grass she stock is quotable from \$5.00 to \$6.00, canners and cutters sold largely at \$2.00 to \$2.00, bullock huts at \$2.50 to \$2.25, a few heaves 3.50. Veal calves closed with bulk of best lights at \$9.50 a few extra choice vealers \$10.00. Good and choice stockers and feeders selling from 5.25 to \$6.00 or \$6.25 are steady with last week's close, common and medium grades selling from \$3.50 to \$5.00, weak and around 25 cents or more lower.
The hog run for the past week at about 51,000 is the heaviest since early in the year and the average cost has dropped down near \$7.00. Range at the close \$5.75 to \$7.40, bulk \$6.65 to \$7.40, good pigs \$5.25 to \$8.55. Lamb have dropped about \$1.00, closing top being around \$7.00. Good fat ewes of all weights sold this week at \$3.00 to \$2.50. Feeding lambs of good to choice grade have sold this week from \$5.50 to \$6.75.

WHEAT PRICE UNSTEADY

Chicago, Oct. 21.—Uncertainty regarding the railroad strike outlook had a tendency today to prevent any decided movement of prices in the wheat market. Sellers were somewhat in the majority at the start but this condition was later reversed. Opening quotations which varied from unchanged figures to 1 cent lower with December, \$1.05 to \$1.05 1/2 and May, \$1.10 1/2 to \$1.10 1/2 were followed by a rally to above Saturday's finish and then by something of a setback.

SOUTH ST. PAUL LIVESTOCK

St. Paul, Oct. 21. Receipts 13,800. Mostly weak to 25 cents lower. Bulk of grass heaves \$1.75 to \$3.75. Bulk of butcher stock \$3.00 to \$4.50. Canners and cutters \$2.00 to \$2.50. Bologna huts \$2.50 to \$2.25. Veal calves steady. Best lights mostly \$9.50. Best feeding steers early \$7.50 with strictly choice kinds quotable around \$9.00. Stockers mostly \$1.00 to \$2.00. Hog receipts 12,000. Opened steady to strong, closing weak. Range \$5.00 to \$7.00. Bulk better grade lights and cutters \$7.25 to \$7.50. Bulk of packing grades \$5.75 to \$5.75. About 3,000 p. g. here. Bulk desirable grades \$8.25; low \$8.10.
Sheep receipts 17,500. About steady on fat stock. Bulk better grade natives and Dakota lambs early \$7.00. Bulk fat ewes \$3.00 to \$3.75. Few choice lights \$1.00. Choice Montana feeding lambs \$6.75.

MINNEAPOLIS FLOUR

Minneapolis, Oct. 21. Flour unchanged, 10 cents lower in car lots on family patent, \$7.25 to \$7.50 a barrel. Shipments 91,000 barrels. Bran \$12 to \$12.50.

CHICAGO LIVESTOCK

Chicago, Oct. 21.—Cattle receipts 26,000. Slow, mostly steady. Hog receipts 40,000. Mostly 10 to 15 cents lower. Sheep receipts 30,000. Generally steady to 25 cents higher.

Nothing in recent months has done so much to bring the burning of the new state game lodge at Custer state park. Many state employees, who each some spent their vacations in the Black Hills mountains have watched with interest and a certain feeling of pride the gradual construction of this close-to-nature hotel which was finally completed and thrown open to the public the middle of last August.

The building was constructed of native granite and rocks, cut and gathered within a few yards of where the structure stood. It was finished after the manner of an up-to-date anti-building which made a striking contrast in the wooded setting.

TAX LEAGUE GETS RESULTS

Duluth, Minn., Oct. 21.—The rate of taxation in St. Louis county next year will be approximately \$57.57 for every \$1,000 of assessed valuation, according to an estimate made by Robert M. Goodrich, executive secretary of the Taxpayers' League. The league had its offices in Duluth. Mr. Goodrich said that he based his figures upon the state, county and city rates, which already have been announced and upon an estimate of the probable expenditure for schools. "Before the league was formed, public officials of both the City of Duluth and St. Louis county were quoted in the newspapers as saying that the tax rate in St. Louis county would be \$71 a \$1,000 next year, which would have been an increase of \$13 a \$1,000 from this year," Mr. Goodrich said. "The league has been working with governmental officials in an effort to determine the necessity for the increased income and it seems at present that the tax rate for next year will not be materially above that of this year."

"The state has announced a tax of \$4.24, the city of \$21.78 and the county of \$9.05. Both the state and county rates are lower than last year, and the city has increased less than \$1 a thousand dollars. No definite tax rate has as yet been announced by the schools, but from estimates made by members of the school board, it seems that the school rate will not go above the \$21 mark."

Debating Contests Hold Interest of N. D. U. Students

Grand Forks, N. D., Oct. 21. With but two of the men who represented the University of North Dakota last year, absent from school this year, and with enthusiasm rampant for the tryouts now beginning, the men in charge of forensic affairs at the university are confident a team will be developed for another year. The tryouts will be ended, and the different teams picked by the first week in December.

SPORTS HIGH SCHOOL RACE IN STATE IS NARROWING

Games This Week, However, Are Expected to Decide All District Winners

MANDAN IN 68 TO 0 WIN

The state high school football race is narrowing down to a few teams, as a result of Saturday's games. Williston has the undisputed honors in the northwestern part of the state. The team is so far ahead of any others that it has met that it appears. Williston on stands in line for the state title again this year with little difficulty. It defeated Crosby Saturday by a score of 68 to 0, using mostly second team men. Williston is scheduled to meet Minot next Saturday for the district championship and should win by a large score. Devils Lake's team is going strong. Defeating Minot 25 to 0 Saturday, the lake team supporters are looking forward to the game to be played next Saturday by Devils Lake and Grand Forks. If Devils Lake beats Grand Forks the lake team supporters will claim the northeastern district championship as against Grafton, and the two teams probably will meet. Grafton now stands far in the lead in the race.

The race in the southeastern district was somewhat complicated by the Fargo-Jamestown game, which resulted in a 7 to 7 tie. Fargo had defeated Dickinson in the district. However, Jamestown's show in a game against other teams is not sufficient to give her the right to claim the title against Fargo. The Jamestown team tied the score by making a touchdown in the last 25 seconds of play.

Mandan and Bismarck

Mandan and Bismarck will fight it out for the southwestern championship here on Friday. Mandan defeated Dickinson for the second time Saturday by a score of 68 to 0. The first game resulted in a score of 33 to 0. Dickinson was triumphed by Williston a week ago, but in so that the comparison is in favor of Williston. Williston has men on its team who can be compared with Melbourn and Gray of Mandan, according to Coach Williamson of Dickinson, who compared the teams after the game.

Mandan for the first time this season used forward passes freely and effectively against Dickinson. Four touchdowns were being gained by the Mandan team in the last quarter. Dickinson played Mandan a close game, her spirit being awakened by a near touchdown, Mandan using seven subs.

U. AND AGGIE TEAMS CLASH THIS WEEK

Collegiate football interest in North Dakota this week-end centers in an engagement at Grand Forks, where the football team of the state university will attempt to demonstrate to the football team of the Agricultural college, that its particular brand of culture endows it with more ability, muscularly speaking, than does the ethical tuition of the Fargo school. The Aggies also have their particular brand of argument for the consideration of the university team. While both schools held their especial homecoming attraction against the schools of South Dakota Saturday the game between the two is always of interest to old timers, and neither team will lack supporters when they line up on the university field.

Neither squad takes the advantage in the game played. Both had to show all possible ability against their Saturday opponents and both had about equally hard battles the week before. Both were able to try out their scoring plays, October 15 and both were tried out in defense Saturday.

While the two state teams are battling at Grand Forks, Fargo and Jamestown colleges will decide the district Arts supremacy at Fargo. Recent defeats for the Jamestown men, and home environments makes Fargo.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work. People afflicted with bad breath find quick relief from Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets get to the bad breath by all ways known. Dr. Edwards' Olive Tablets are gentle but firm on the bowels and liver, stimulating them to natural action, clearing the blood and purifying the entire system. That is what which bad breath and does without any of the bad side effects. All the horrors of nausea, sickening, empty retching are derived from Dr. Edwards' Olive Tablets without any of the disagreeable effects. Dr. E. M. Edwards discovered the formula after a lifetime of practice on patients afflicted with bowel and liver complaint, with the attendant bad breath. Olive Tablets are purely a vegetable compound mixed with olive oil, you will know them by their olive color. Take one or two every night for a week and note the effect. 15c and 30c.

EX-SENATOR GORE TELLS WHAT HE WANTS TO SEE

Statesman Whose Eyesight May Be Restored Yearns to Look on Wife

By Norris Quinn
Washington, Oct. 24.—After more than a year of perpetual darkness, ex-Senator Thomas B. Gore of Oklahoma, has been given hope that his sight may be restored. If the treatment he is now undergoing at the hands of a Boston specialist is successful, what will the blind senator, lawyer, schemer and sociologist, be most eager to see? First of all, his wife. He courted and wed her 21 years ago, but he has never seen her. Then— This 55-year-old daughter and 10-year-old son, whose growth from infancy he has been able to follow only by a pat of the hand. Then— The 300 books of his library, whose contents he knows in his unusually keen memory— Washington, where he has served 14 years as senator but never saw the Capitol, the White House, the Washington monument or the Potomac River.

An automobile. He rides in one daily but they were unknown when he last saw the light of day. World a Mystery In short, Gore wants to see the hundreds of new things that have come into the world in the last 34 years. He wants to see a city for the first time and contrast it with his native farm village, the only community he ever saw.

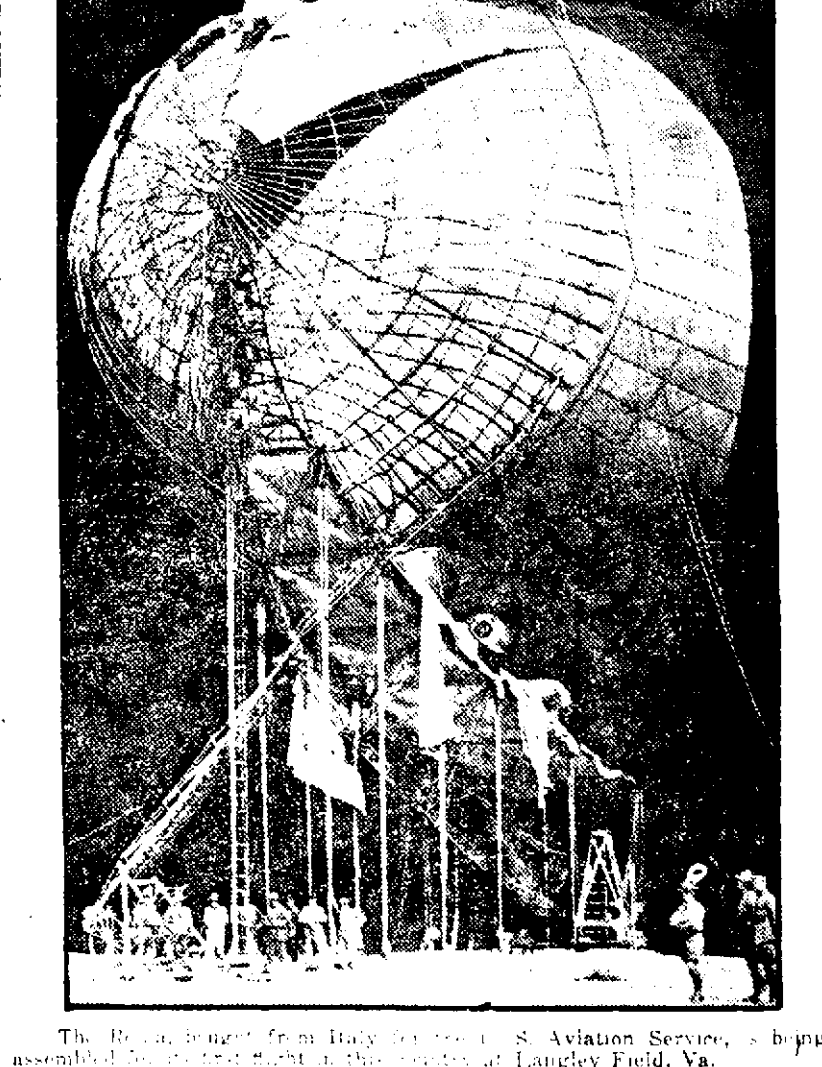

But Gore doesn't really expect to see any of these things. He's not as optimistic as his physician, Dr. Samuel Harris of Boston. If sight comes, it will be welcome. If it doesn't, well, Gore is so used to darkness that he doesn't miss the glowing world around him. Gore enjoyed natural eyesight until he was eight. Then a stick, thrown at a cow by one of his farm lad friends, struck him in the left eye and de-

the favorite of the doctors, but this is not a year when dice runs true to form. By virtue of this same dice, continued in its much unbalanced path, the Big Ten does not have a game which should be in light. Illinois is entertaining Michigan, Wisconsin is best to Minnesota, and Purdue has fared as a rather unimpressive visitor, unless the Buckeyes are of the ways they have been as host to Notre Dame and Illinois. Chicago, supposedly resting from the rigors of the Princeton battle, is expected to take a team from mountain top St. Louis and the battle of the day in the nation for at Indianapolis where Indiana and Notre Dame scrap for the Hoosier championship. Unless an Ohio State Butler College teaming not admit to last statement, the two college teams meet at Indianapolis Friday, and the result of the game may demonstrate how much Page has done to bring Butler up from the depths.

In the Missouri Valley conference, Kansas, emulating Dakota, will stage its University-Aggie scrap, the game also taking place at the home of the university at Lawrence, Nebraska meets the Missouri Valley champions in Benny Owens team from the University of Oklahoma. The "Stoners" have not shown the ability they expressed last year, but may come to life on the field at Lincoln. The other scrap is the annual battle between Drake university and the University of Missouri. Inter-sectional games include the meeting of the colorful Center College team and Harvard at the stadium. Tulane university of Louisiana, making the first of its two northern trips, is meeting Detroit at Detroit, while Penn State and the Golden Tornado of Georgia Tech meet in New York.

The east will divide its attention between the Pennsylvania scrap in which the University of Pennsylvania will try to retrieve its laurels in a game against Pittsburgh, the test of Cornell by Dartmouth and the regular Irish scrap which takes place with the meeting of Fordham and Boston college. The far west has two stellar battles in the meeting of Stanford and the Oregon Aggies and California and Washington State.

ASSEMBLING NEW DIRIGIBLE

The new dirigible from Italy for the U. S. Aviation Service, is being assembled for its first flight in this country at Langley Field, Va.

EX-SENATOR GORE

prived him of its use. Three years later a shaft from a crossbow struck him in the right eye. He had to have the eye removed. For a time Gore was able to distinguish the outlines of large objects. Then that power left him and he was able only to tell night from day. This last remnant left him before he was 21. Gore has served three terms in the U. S. Senate. Now Gore is practicing law here, specializing in tax and land matters. He comes to his office punctually every morning. His secretary reads aloud to him from law books. He prepares his cases by dictation.

- Geo. Ireland 221
- Art Bowers 221
- Pat. Donahue 212
- Theo. Martell 209

MANDAN NOTES

Veteran of War Returns to Farm

Carl Presley, 28, holder of the United States distinguished service medal, arrived in Mandan on Thursday after a five months trip by horse and wagon from the home of his parents near Fulton, N. Y., and plans to take up farming where he left off over three years ago. Presley previous to the war had been a resident of Morton county for eight years. He was drafted into the service by the Morton county board in April, 1918, and reported for duty in Utah where he had gone for a visit.

After training at Camp Lewis, Wash., he was assigned to combat duty with Company K, 36th Infantry of the 1st division. His citation shows that on September 28, 1918, after having just returned from a reconnoitering patrol in which machine gun bullets had plugged his canteen and ripped a breast button off his coat, and in the face of an expected attack from the Germans, he with a companion had shown extraordinary bravery in the face of fire from one pound cannon and machine guns, and went out between the lines to secure a wounded American soldier whose foot was shattered, and who, a target for German snipers, was dragging himself towards his lines. Presley and companion, using a rifle as a seat for the man, carried him to the American trenches, escaping the German fire by miracle. Mustered out of the service in New York state, he left Fulton, N. Y., June 6, last, driving a horse to a light wagon and with Harold Zufeld, a former "gob," took five months to drive to Mandan. He is believed to be the only service man from this section of the state who won the D. S. C.

New City Commissioner Makes Statement Here

N. H. Romer, who was elected city commissioner at the election held in Mandan Friday made the following statement when he learned of his election: "I want to assure all the people of the city that I will do all in my power to merit the confidence placed in me by my constituents. In accordance with my promise made before election, I will endeavor to treat everybody fairly as an official of the city." Mr. Romer will fill the unexpired term of Nelson E. Luther, who died from injuries received in an auto accident a month ago. He has been a resident of Mandan for nine years, having moved there from Jamestown.

Mrs. C. D. Sterling left yesterday for her home in Montana after a visit at the home of her daughter, Mrs. Raymond Tipper.

Mrs. Charles ... and Mrs. E. R. Lanterman of Mandan were shopping and visiting friends in Bismarck today.

Miss Alice Gordon of Bismarck spent Sunday the guest of Mr. and Mrs. Fritz of Mandan.

Mr and Mrs. Carl Sunmark and baby daughter of Mandan, spent Sunday visiting friends in Bismarck.

AT THE MOVIES

"THE CONFESSION" AT THE ELTINGE
The World's most beautiful love story is said to describe Hal Reid's play, "The Confession," which has been made into a marvelous motion picture by the National Film Corporation, featuring Henry Walther. The story of the picture is one calculated to hold its audience spell bound from beginning to end, encompassing as it does the gamut of every human emotion, the love of sweet heart for sweetheart, brother for brother, and last, but not least, the love of a mother for her son. "The Confession" as a stage play had a wonderful career and in its new form is much better, from the fact that it is not limited to the few stage scenes possible in a theater. On the program with "The Confession" at the Eltinge today and tomorrow are the new pictures and Topics of the Day.

RAINBOW GIRLS AT THE REX MAKING HIT
Harry McKinnon and his girl show have caught the public fancy at the Rex in great shape and all the kids who have so far presented have more than made good. Today the vaudeville offering will be "Bringing Up Father," while "The Hall Room Boys" will be seen in "False Roomers," and Bebe Daniels in "A March Here" will be the feature photoplay. From the moment tomboy Lizbeth abandons her back-lot bull game to speed a fast car after the "limited" which she was to take for New York, there isn't a single idle minute in this fast-moving offering. And when she arrives at her aunt's fun galore is on tap when the young heiress finds an impostor posing as Miss Lizbeth. And Palmer, with intention to profit through the connection. The star role is irresistibly youthful and will un-

ADMITS HAVING FACE MADE OVER

EDNA WALLACE HOPPER

EDNA WALLACE HOPPER LOOKING YOUNG AGAIN!

BY ALICE ROHE
New York, Oct. 21.—Have you seen Edna Wallace Hopper?—The 1921 model, I mean?
An interview with the diminutive actress who was famous a long time ago, brings the revelation that women may look the future as well as her mirror in the face without fear. "Yes, I've had my face surgically 'made over,'" said the small person, looking very much like a girl of 19. "I guess I'm the first woman to admit it. And not only that—but I was fitted in the act!"
"I'll not only permit exhibition of the film, but I'll appear in person to show that it's real."
"Of course, there are all kinds of people who remember me when I was young. Well, some of them won't believe I'm the same person when they see me now."
"It's just great to gaze in the mirror and see my face looking as young as I feel."
"Oh, if you only knew the tragedies that have been revealed to me by women since I've had this done! All women in this age are young in spirit. It's awful, when you feel 25, to see the tell-tale lines in your face and reflect the other person's point of view when he's examining you."
"No, it isn't vanity. It's life—it's happiness—it's a woman's career that makes her want to live."
"Some one once told me I suppose—said long ago that a man is old as he feels and a woman is old as she looks. Well, I believe women have the right to look as old as they feel."
"The only uplift movements aren't social. The uplifting of women's sagging lips is just as important. It makes them happier, healthier women."
"Science has made it possible for women to keep youthful faces, to keep youthful figures. It won't be long before science prolongs life. And if scientists want to experiment on any one—here's a small person ready for them."
"It's nice to hear you say I look wonderful—but the only wonderful thing about it is that I've told! You see many women every day and wonder how they keep so young looking. Why, they've had plastic surgery performed. And it isn't women alone who go in for it—it's MEN."

doubtedly find wide favor among the rapidly growing Daniels clientele.
The star is supported in the picture by an exceptional cast. Playing the leading male role is no less a film personage than Harry Myers, whose great success in "A Connecticut Yankee in King Arthur's Court" still continues to be an outstanding feature of current photodramatic history. As "Tod" Rollins in this production Mr. Myers shows the same engaging naturalness which won his previous triumph.
FIRST LOVES MARY.
Richmond, Eng., Oct. 24.—After he had been married twice John C. King met his first love, Mrs. Harriet M. Claridge, and became her second husband. He is 82 and she, 74.

Elliott Printing company, Fargo; capital stock, \$25,000; incorporators,

THE SIDE-SADDLE COMING BACK

It takes daring to leap the hurdles sitting securely astride a horse. And this year more and more women are returning to the less secure side-saddle. Here Mrs. E. R. Lanterman, the Grand, Roseville, in "Forsythe" as she takes a much bolder at the annual Meadowbrook Hunter show at Westbury, Long Island. No, she didn't fall.

Edwin S. Elliott, Geo. McKee, Howard Harverson, Fargo, John O. Elliott, St. Paul, Minn.

Red Cross Aid Covers Wide Field

Washington, Oct. 24.—Forty-three disasters ranging from the grasshopper plague in North Dakota to the Chinese famine called for emergency relief measures by the American Red Cross during the fiscal year ending last June 30, according to the portion of the society's annual report dealing with the peace-time service, made public today.

The disasters resulted in the death in the United States of 850 persons and the injury of 2,500, caused property damage estimated at \$50,000,000, affected 67 communities and rendered 65,000 families homeless. Attendant relief activities resulted in an expenditure by the Red Cross of \$1,871,000.

The summary of the year's disaster, as given in the report showed that Red Cross relief was furnished in the case of seventeen fires, five floods; seven tornadoes or cyclones; one devastating storm; three explosions, including the one in Wall street; one building accident; two typhoid epidemics, the more serious being that at Salem, Ohio, which affected nine per cent of the population; a smallpox epidemic in Haiti; a train wreck; the Tulsa, Okla., race riot; the famine in China, affecting millions of persons; the famine among the Indians of Alaska; the grasshopper plague in North Dakota and an earthquake in Italy.

The most serious disaster in the United States was the Pueblo flood last June, in which the Red Cross assisted in rehabilitation.

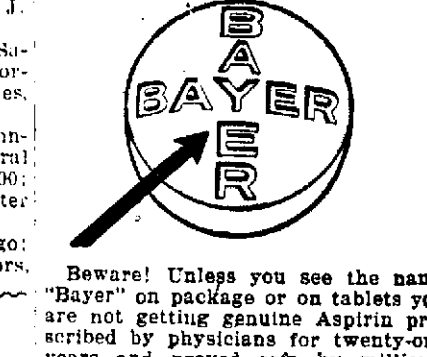

In marked contrast with the previous year, only one tornado assumed the proportions of a major disaster, the report said. This occurred last April in the border sections of Texas and Arkansas with the city of Texarkana as the center. The famine in China, calling for expenditure by the Red Cross of more than \$1,000,000, was the most serious of foreign disasters in which the organization gave aid.

The report declared an increasing effectiveness on the part of the Red Cross to deal with emergencies was manifest during the year. Through its chain of chapters, linking virtually every county in the country with national headquarters at Washington, the Red Cross, it was said, has established a network of a communication through which instantaneous relief may be dispatched to any part of the United States.

Through its nursing service, its hygiene and care of sick, nursing, first aid and life-saving classes, and health centers, and in numerous other ways designed to acquaint masses of citizens with proper methods of living, the Red Cross carried its message of health into all parts of the country. The American Red Cross nursing service, the reserve of the army, navy and public health service, at the end of the year had enrolled 37,787 nurses, an increase of 1,084 over last year. More than 78,000 certificates were issued to women and girls who completed the Red Cross course in home hygiene and care of sick and through its 260 health centers, the Red Cross reached 90,252 persons with health information.

ASPIRIN

Name "Bayer" on Genuine

Beware! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as directed in the Bayer package for Colds, Headaches, Neuralgia, Rheumatism, Earache, Toothache, Lumbago, and for Pain. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Drugists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylic Acid.
